City Profile

Copenhagen is one of the most popular conference cities in the world due to its easy accessibility, general level of efficiency and low crime rate. The city is also well organised offering short distances between hotels and state-of-the-art conference facilities, and firstclass cultural activities.

Copenhagen's many years of experience hosting international conferences and meetings, and its history of openness and willingness to share knowledge and resources, facilitate the work of arranging congresses. Copenhagen is a city where the modern age mingles with the past, where shops on narrow, winding streets showcase the latest trends in fashion and technology.

Copenhagen is proud of its environmental record as not only one of the safest, but also as one of the cleanest and most comfortable cities in the world. Annually the city hosts approximately 100 international congresses and meetings. For instance, the United Nations Climate Change Conference, the IOC Congress and the UEFA Congress.
